Email: duongdominhchau@gmail.com

Phone: [+84 968 09 54 87](tel:+84968095487)

Location: Ninh Kieu District, Can Tho, Viet Nam

Skills

Version control system

☒ Git ☐ Mercurial ☐ Subversion

Programming language

C++

I use this for desktop applications, Qt is a nice framework for this task.

PHP

PHP is used in all my web applications. My experience with previous versions is terrible, but in PHP 7 things are getting better.

Java

Used purely for school projects. I don't like it, but if I have to choose, I will favor Java over C# because of its ecosystem.

JavaScript

Essential for all my websites. Besides, writing ad-hoc JavaScript to gather informations is not something unusual.

Python

This is the language to go when my shell script grows too complex. I don't write many scripts, though.

Database

I use MySQL and SQL Server for my web apps, SQLite for desktop apps.

Education

2016–2021 Can Tho University
(in progress) Bachelor in Software Engineering, Can Tho University
GPA: 3.56/4.0
Academic transcription: [official version from CTU](#)
[\[Transcript/CTU Official \(retrieved 2020-05-20\).pdf\]](#) (nearly
unreadable) or [my reorganized version](#)
[\[Transcript/Reorganized.html\]](#).

Work Experience

No past job for now, I have not graduated yet.

Projects

Check my GitHub: [duongdominhchau](https://github.com/duongdominhchau) [<https://github.com/duongdominhchau>]

Sadly, currently I have nothing big enough to show here, most repos are just forked from existing applications and slightly modified to fit my need.
